DOLOMITE STEP UP

The rehab optimizer

DOLOMITE STEP UP is a new modern platform support. Made to give rehabilitation to several patients every day. Adjust to optimal ergonomic position by a few simple handgrips – quick and easy!

DOLOMITE STEP UP can be manually adjusted, hydraulically or with a motor. Assembly of accessories is tool free. Are you ready to step up?
Made for training
The base frame is designed to enhance premium gait area. The raised frame in front allows longer step. The width inside the frame generous.

Ergonomic adjustment of arm support
Arm pads are in soft material for pressure relief. Securely assembled with microfilm. Quick and simple to remove for cleaning or replacement.

Transfer and access
Well thought out for transfer situations. From bed, the lowered rear-end helps reversing under the bed. When transferring from wheelchairs benefit of the generous frame size and, the width adjustment.

Features and Options
By releasing the central knob, the both arm pads are simultaneously adjusted in width. The position of the arm supports remains in an angle of 25 degrees from the shoulder points - the ideal position for keeping upper strength.
Accessories and options
