**Attachment for custom fabrication enclosed**

By placing the order, you agree to comply with the instructions for use/service manuals for accessories and products of other manufacturers when combining them with an Ottobock product, in addition to the instructions for use/service manuals of the respective Ottobock products. Also you confirm to have read, understood and accepted, our general terms and conditions. In addition, you agree, upon placing an order, to conduct your own conformity assessment or approval in accordance with national requirements if and when you implement modifications or attachments that do not meet the specifications of Ottobock instructions for use/service manuals.

### Standard equipment

Article number: 480F61=2\_AA02\_C

**Price: x.xxx,- €**

valid from 01.01.2024 - 31.12.2024

- Aluminium tube frame with cross brace
- Integrated leg support holders

## Adaptive wheelchair *Motus CV*. Master order form

### Information

#### Wheelchair measurements

- 1 Anterior seat height (ASH) = ground to top of seat upholstery
- 2 Lower leg length (LL) = top of seat upholstery to top of foot plate (without seat cushion)
- 3 Posterior seat height (PSH) = ground to top of seat upholstery
- 4 Back support height (BH) = top of seat tube (cross-brace) to top of back support upholstery
- 5 Seat depth (SD) = front of seat upholstery to back support tube
- 6 Seat width (SW) = outside edge of frame tube to outside edge of frame tube

Anterior seat height [cm]					
Caster fork	Wheel diameter				
	4"	5"	5,5"	6"	7"
short	38 - 46	40 - 46	42 - 47	42 - 47	44 - 49
long	46 - 53	47 - 54	44 - 55	44 - 55	45 - 55

The values indicated are rounded values which have been theoretically determined. Max. deviation of 1 cm.

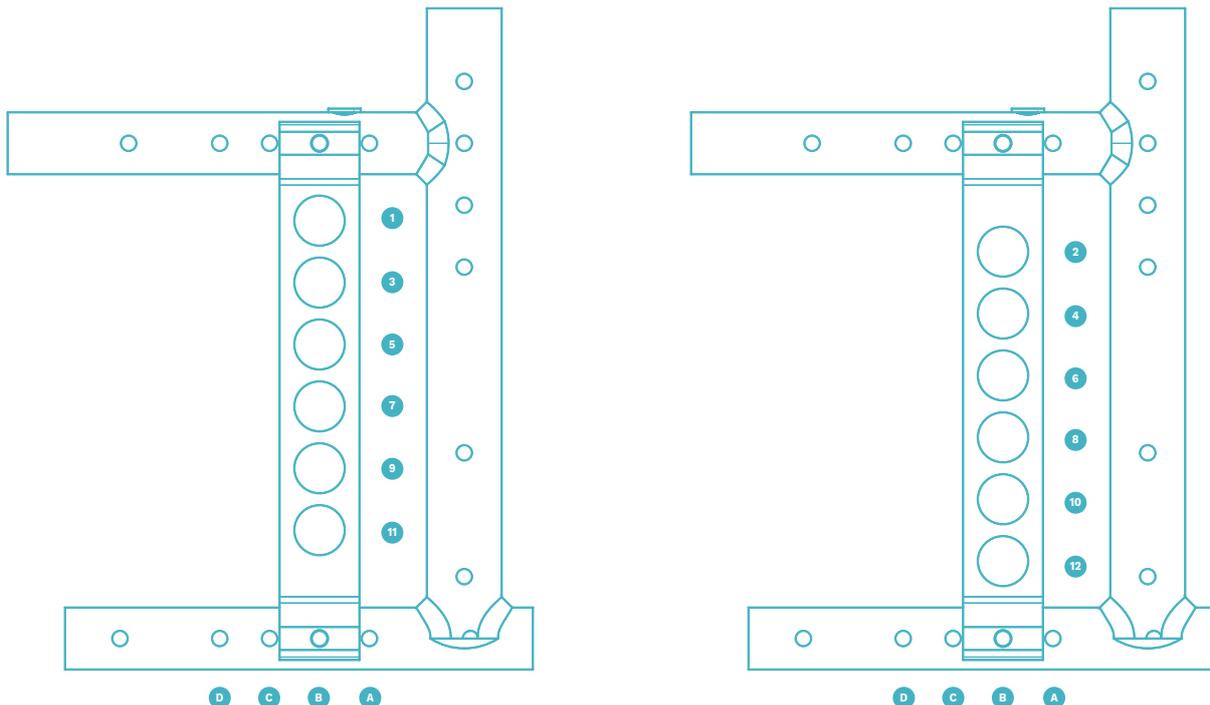

The anterior seat height depends on the selected wheel size, caster fork and mounting position. Please refer to the seat height table! Specified without seat cushion at 0° seat inclination.

Horizontal position of the drive wheel attachment device: see sketch.

The posterior seat height (PSH) depends on the selected wheel size and mounting position in the drive wheel attachment device. Please refer to the seat height table!

A manufacturing tolerance of 10 mm applies to all measurements and of 10% to specified weights.
